European Commuters for Sustainable Mobility Strategies
This project has received funding from the European Union

QUESTIONNAIRE DATA COLLECTION

final version

*The objective of the E-cosmos-project is to study, quantify and define procedures to promote socially and environmentally sustainable mobility of workers in the EU. With this questionnaire the consortium wants to collect all necessary data from all involved countries. If any questions concerning this questionnaire, you can contact Vincent Meerschaert (vme@traject.be, +32 9 242 32 80) for assistance. **Please send back the questionnaire before 30th of May.***

1. General

Date: Country:

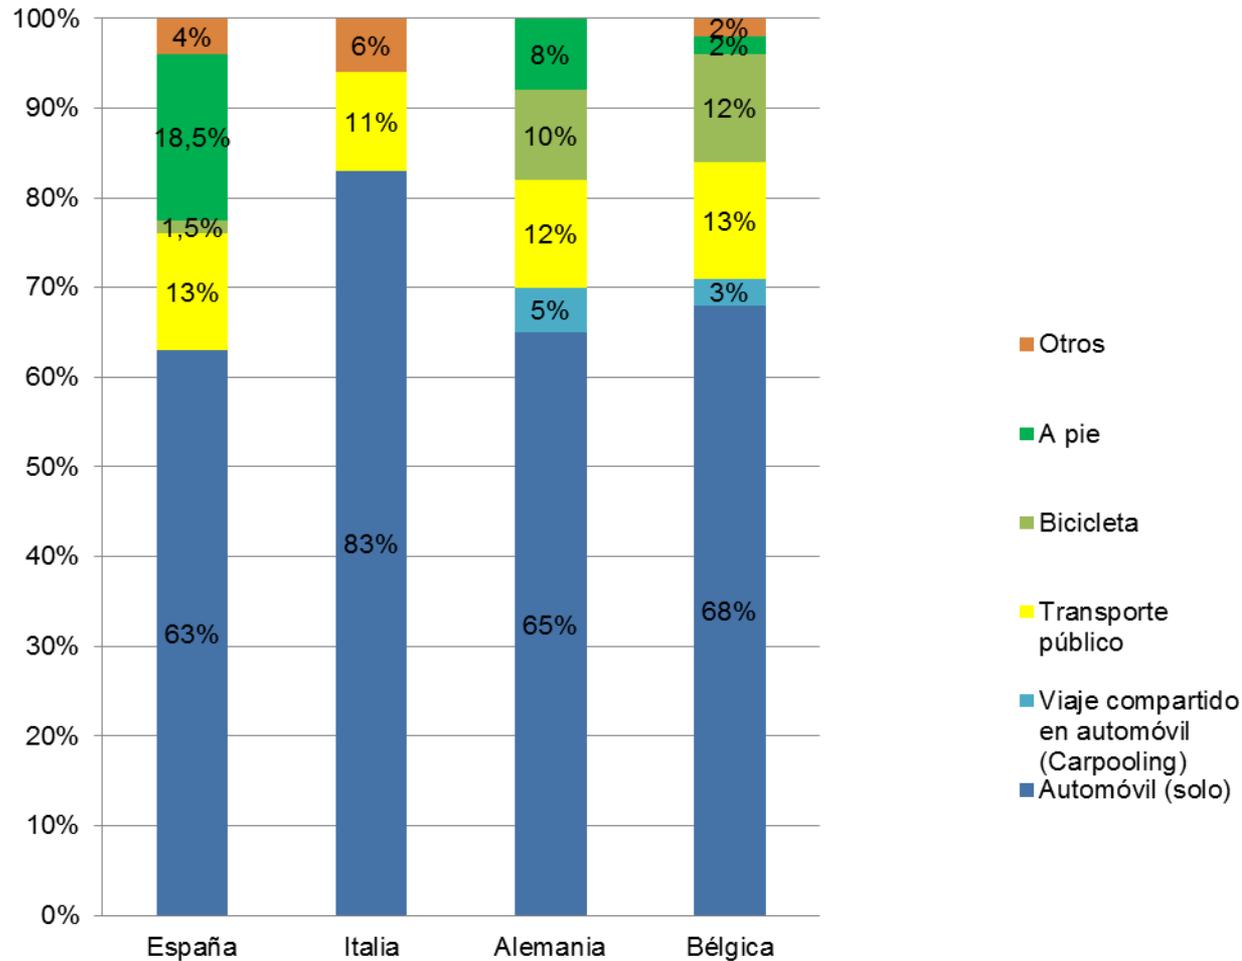

Name and function of person who filled in questionnaire:

2. Context indicators

| | | | | | |
|--------------------|--|-------|--|--|-------|
| Population | | date: | Average salary | | date: |
| Surface | | date: | Unemployment rate | | date: |
| Population density | | date: | % employment rate in service sector | | date: |
